ABOUT THE PUBLISHER

Vapouround Magazine is the global leader in publishing in the e-cigarette industry, with unrivalled access to the world's vape market and a presence at every major vape exhibition, through an extensive list of media partnerships. Four years in, the company has several awards to its name, including the Ecigclick Award for Best Vape Mag 2017 & 2018. The flagship publication in the UK was also awarded Best Vape Magazine 2018 by Acquisition International.

In 2018, a CBD lifestyle publication was established in the UK as the rise of CBD within the vape industry became apparent. Issue one was launched in January 2019.

In keeping with the rapid expanse of the CBD industry, the magazine also quickly grew to incorporate the variety of brands, research and innovation within the UK.

In a short space of time, the magazine has evolved into a source for all things CBD, including everything from the people who sow the first seed to the finished products like — but not limited to — raw extract, oil drops, edibles, sports supplements, skincare and cosmetics and vape products.

Fast forward to 2020 and THE CANNAVIST USA EDITION is here!

This lifestyle magazine balances hard-hitting first hand accounts of how CBD and medicinal cannabis have affected those closest to us, documenting valid issues within the CBD community and industry.

DISTRIBUTION

25,000 copies distributed per issue right across America to:
Gym chains, health stores, spas,
